EDUCATION

- **Malla Reddy University** Hyderabad, Telangana, India
B.Tech – Data Science - CGPA: 8.00 Aug 2024 - Present

SKILLS SUMMARY

- **Programming:** C++, Python, Java, SQL
- **Web Technologies:** HTML, CSS, JavaScript, React,
- **Libraries/Frameworks:** OpenCV, MediaPipe, NumPy, BeautifulSoup, Pandas
- **Core Concepts:** Data Structures & Algorithms, DBMS, Computer Vision, Image Processing, Real-time Video Processing
- **AI/ML:** Basic Machine Learning, Generative AI, Prompt Engineering
- **Tools:** Git, GitHub, VS Code
- **Operating Systems:** Windows
- **Soft Skills:** Time Management, Public Speaking, Critical Thinking, Problem Solving, Teamwork

EXPERIENCE

- **Virtual Internship – Infosys** Aug 2025 - Oct 2025
 - Learnt **GenAI and LLM concepts**, including **RAG (Retrieval-Augmented Generation)**, LLM pipelines, and prompt engineering.
 - Built and worked on an **Agent-Orchestration Framework** using **LangChain**.
- **Software Development Intern – SkillCraft Technology** Jun 2026 – Jul 2026
 - Developed four software development projects using **C++ and Python**, including a **Temperature Converter**, **Number Guessing Game**, **Sudoku Solver**, and **Web Scraper**, applying Data Structures & Algorithms and problem-solving techniques.
 - Built applications involving **file handling, web scraping, and CSV data processing**, while managing projects using **Git and GitHub** with proper documentation and version control.

PROJECTS

- **AI-Based Height Estimation System**
 - Built a real-time height estimation system using MediaPipe and OpenCV
 - Implemented pose detection and pixel-to-real-world calibration
 - Added validation for posture and distance
 - (<https://github.com/SaiHemanth2005/ai-height-estimator>)
- **Prescripto**
 - Developed an AI-powered medical assistant for digitizing handwritten prescriptions using **OCR**.
 - Integrated chatbot assistance, doctor consultation, text-to-speech, and medicine reminders.
- **Web Scraper (Python)**
 - Built a Python web scraper using **Requests, BeautifulSoup, and Pandas** to extract product details from an e-commerce website.
 - Automated data collection and exported product names, prices, and ratings to a CSV file.
 - (https://github.com/SaiHemanth2005/SCT_SD_4)
- **Sudoku Solver (C++ & DSA)**
 - Developed a console-based Sudoku Solver using the **Backtracking Algorithm** in C++.
 - Implemented puzzle validation, recursive solving, and automatic solution generation.
 - (https://github.com/SaiHemanth2005/SCT_SD_4)

Achievements

- Software Development Intern – SkillCraft Technology
- Virtual Intern – Infosys Springboard
- Google Student Ambassador
- Participated in national hackathons including kAizen GenAI Hackathon and Innovision NSUT
